<p>SEPTEMBER 04 NO LUNCH – LABOR DAY HOLIDAY</p>	<p>SEPTEMBER 11 Millennium, Steve Holeczy, 847-347-7630</p> <p>AIA LU</p> <p>“Light Interference Color Stainless Steel”</p> <ul style="list-style-type: none"> -The process of coloring stainless steel using the electrochemical process, Light Interference Color. -Exterior façade and roof application and limitations. -LIC characteristics and the effect of viewing angles, light conditions and material finish on color -The evolution of metals in construction and architecture 		
<p>SEPTEMBER 18 Andersen Windows & Doors, Kurt Jacobsen, 480-717-1465</p> <p>1 AIA LU with HSW “How to Select the Right Door”</p> <p>Modern design trends are favoring larger openings and while this blank canvas offers the architect a wide range of options, it can also pose a challenge. Because of the almost unlimited variations of different types, styles and available options for large doors, it is often more important that the architect understands how to make the selection process, rather than which specific door to choose. The process for specifying should include client aesthetic expectations, environmental conditions, building performance and durability concerns. .</p>	<p>SEPTEMBER 25 Doormerica, Wally Berry, 951-316-3674</p> <p>“Flush Doors 101” 1 AIA LU with HSW</p> <p>Some of the items covered will include:</p> <ul style="list-style-type: none"> -Selecting face veneers and slice types -How veneers are sliced for specific appearance and grade, veneer matching options -Skin grading options -How to specify veneers to gain the desired appearance -fire-rating options, ply definitions, core options, Green Build options, smoke & draft control options and pre-finishing

September 12

Sound Seal, Socorro Rudolph, 480-765-1312 and David Ingersoll

1 AIA LU with HSW

“Unwanted Sound can Become More than a Mere Annoyance”

Excess noise has been found to increase stress and distraction, reduce learning and productivity and even lead to hypertension and permanent hearing loss. This course presents an overview of how sound is described and measured and discusses the many industrial and architectural products available to control noise in virtually any environment.
