

Location: Phoenix, AZ

Experience: 3+ Years

Dekker/Perich/Sabatini is a diverse group of people unified around the idea that exceptional design has the power to create places that benefit the populations they serve. If you are looking for an opportunity where your skills can be enhanced by collaboration with a team of people focused on success, you may be the right fit for the following position in our Phoenix, AZ office:

Experienced Intern Architect: Can be a tenured intern who has at least 3 years of experience with US standards and codes. Able to use their communication skills to collaborate with a skilled project team while periodically mentoring less experienced staff. As an experienced contributor at DPS, candidates would play a key role in creating modern design backed by support of a firm that has been a staple in the industry for 60 years.

Required Qualifications: Applicants with a degree in Architecture who have strong design, organization skills and experience in production. Proficiency in AutoCAD and Revit are required. Google Sketchup and Adobe Suite abilities are preferred.

Dekker/Perich/Sabatini offers competitive benefits and salary packages based on education and experience. For a full list of our benefit options please visit our careers homepage at <https://www.dpsdesign.org/careers>

We value innovative thinking, initiative, and entrepreneurial skills. Tell us about that time you tried something new or spotted an opportunity and made the most of it by sending us an email with your application materials to Recruiter@dpsdesign.org.
