Land Surveyor

Perry Engineering is looking for a Land Surveyor with a minimum of **four** years' surveyor experience, preferably with an emphasis on land development and civil engineering project management. The Surveyor will assist the Registered Land Surveyor by participating in different types of field work, including, but not limited to: right-of-way surveys, design and topographic surveys, property boundary surveys, ALTA surveys, FEMA Flood Certificates, construction staking, and the use of aerial photographs. The Surveyor must be able to interpret point sheets, cut sheets, and paving, grading, water and sewer plans. The Surveyor will be responsible for handling standard surveying equipment, including Robotic Total Stations, survey-grade GPS equipment, Static GPS measurements, and RTK GPS measurements. The Surveyor will use optical levels, maintain field notes, and work closely with the Registered Land Surveyor to employ proper land surveying procedures with various survey instruments to collect all needed field data in an efficient and safe manner. A valid Driver's License, strong verbal and written communication skills, and experience in AutoCAD Civil 3D are a must. Perry Engineering offers a competitive benefit package, salary, and a friendly work environment.
