

BWS Architects provides intentional, thoughtful design services for organizations that want to ignite creativity and bring their vision to life in the places where people learn, lead, and discover. By designing solutions that are timeless, responsive, and beautiful, we create spaces that go above and beyond serving a functional need to enrich our lives and build community pride.

BWS ARCHITECTS | AVAILABLE POSITIONS

Project Architect – *Phoenix*

BWS Architects is seeking a registered Project Architect with 5-10 years public work experience to work as part of the team in our Phoenix office. Strong technical and computer skills are required including REVIT and Adobe Creative Suite.

- Responsibilities will include consultant coordination, development of construction documents and construction administration.
- Candidates should have project management skills, the ability to manage multiple projects and be self-directed.
- Candidates should have great communication and client relations skills.

BWS Architects specializes in public and community projects. We have been recognized for quality service and design excellence, having received the AIA State of Arizona Firm of the Year Award for 2014.

Send cover letter and resume including references to gsoto@bwsarchitects.com.
