

Company Description

W.E. O'Neil is a commercial construction company that always acts with integrity in all of our interactions, never compromising our business ethics. This is the cornerstone of who we are as a company and is essential to our future success. Our people are our competitive edge and thrive in a culture framed in teamwork and client satisfaction. We empower our clients to focus on their business. This challenges our organization to continuously improve our service and drive shareholder value.

Superintendent

General Role Description

This person is responsible for the successful completion of all projects within budget, on schedule with zero construction deficiencies in a safe manner. The Superintendent is focused on supporting project management in execution of job related issues. This individual will work to ensure a positive team environment based on mutual respect and collaboration between Project Management and Field Operations. This role is focused on client service and will be accountable for all aspects of site operations as well as delivering projects in the field for the mutual success of our clients, internal teammates, architects, engineers, specialty contractors and other stakeholders. The position reports to the Director of Operations.
