

Southern Arizona Project Manager, Land Development

EPS Group is a top 10 firm in the Southwest region, offering opportunities in both private and public sector disciplines. As an Arizona-based Engineering, Surveying and Planning firm in the Southwest, our culture is centered around an entrepreneurial mindset that rewards innovation and collaboration. Work-Your-Way. We are one-team in multiple locations to include: Arizona, California, Colorado, and coming soon to Texas!

We are seeking a Project Manager in Land Development to be a part of our Southern Arizona team. Candidates should have strong leadership, design, communication, organization, and enjoys working in a fast-paced, collaborative environment.

RESPONSIBILITIES/JOB PURPOSE

This position will report directly to the Department Manager. Management of project(s) engineering/design duties are focused on residential communities and large-scale developments, education, healthcare/senior living, campus design, commercial, parks, streetscapes, and community markets working collaboratively with other firm disciplines and consultants.

- Manages project objectives by collaborating with client and management; developing project proposals, ensuring contractual relationships with the client by negotiating and obtaining signed contract prior to commencing work.
- Establishes project plan by determining timeframes, budgets, staffing, and project schedule.
- Establishes and achieves financial objectives by maintaining project budget and schedule, approving expenditures, analyzing variance (i.e.. scope creep), negotiating changes in scope/contract, etc.
- Controls project by directing and approving changes in design, specifications, budget, and schedule consistent with project objectives.
- Approves work product by analyzing design, client requirements, and performance standards.

Candidates should have 10+ years of experience within the private development industry, along with the following:

- Bachelors in engineering is required.
- Possesses a Professional Engineer's License
- Proven proficiency in AutoCAD 2018.
- Possess strong leadership, design, communication and organizational skills with the ability to work in a fast-paced collaborative environment, with the aptitude to multi-task and meet deadlines.
- Proficient in Microsoft Office, with advanced Excel skills.

Qualified applicants submit cover letter, resume in PDF format to careers@epsgruoinc.com for consideration.
