

Architectural Revit Designer – Commercial Architecture

Atmosphere Architects – Mesa, Arizona

About Us

Atmosphere Architects is a growing architecture firm based in Downtown Mesa, Arizona. Our team currently consists of 10 professionals working on a diverse range of project types including commercial, industrial, educational, government, multifamily, and high-end custom residential projects.

As a smaller, hands-on firm, we offer team members the opportunity to be involved in all aspects of project development and documentation rather than being limited to a single role. We value collaboration, initiative, technical excellence, and a positive team culture. Our firm continues to grow through strong industry relationships, repeat clients, and referral-based work, and we are looking for the right individual to grow with us.

Position Overview

We are seeking a talented and motivated Architectural Revit Designer with commercial project experience to join our team. This position is ideal for someone who is detail-oriented, passionate about architecture and BIM technology, and enjoys working in a collaborative studio environment.

The ideal candidate will have strong Revit production skills, an understanding of building systems and construction methods, and the ability to contribute to multiple project types simultaneously. This role also offers opportunities for growth into project coordination and leadership responsibilities over time.

Applicants may be asked to demonstrate Revit proficiency as part of the interview process.

Key Responsibilities

- Produce architectural plans, elevations, sections, details, schedules, and construction documents using Revit
- Assist project managers and architects with design development and construction documentation
- Develop and maintain Revit families, templates, and BIM standards
- Convert CAD backgrounds and consultant information into Revit models

- Coordinate drawings with consultants and internal team members
 - Participate in occasional internal Revit/BIM training and technical support
 - Help maintain quality control and drawing consistency across projects
 - Work collaboratively within a team-oriented studio environment
-

Qualifications & Skills

- 2–5 years of experience in an architectural office preferred
 - Proficiency in Autodesk Revit required
 - Experience producing commercial construction documents preferred
 - Understanding of building systems, construction methods, and applicable codes
 - Strong organizational skills and ability to manage multiple assignments
 - Detail-oriented, self-motivated, and dependable
 - Strong verbal and written communication skills
 - Proficiency in Microsoft Office
 - Ability to learn and adapt to company BIM standards and workflows
 - Experience creating Revit families and troubleshooting Revit issues preferred
 - Associate or Bachelor's degree in Architecture, Interior Design, or related field preferred
-

Compensation & Benefits

Compensation

- \$50,000 – \$65,000 annually, depending on experience and qualifications
- Bonus opportunities

Benefits

- Paid time off
- 401(k)

- Health insurance
 - Dental insurance
 - Professional development assistance
-

Work Environment

This position is based in our Downtown Mesa office and is intended to foster collaboration, mentorship, training, and team coordination through an in-person studio environment. Our projects are located throughout the Valley and across Arizona, offering exposure to a wide range of project types and client interactions.

We believe the best architectural solutions come from a collaborative office culture where team members can work closely together, share ideas, solve problems in real time, and continue developing professionally.

Schedule

- Full-time
- Monday through Friday
- 8-hour shift

Work Location

Downtown Mesa, Arizona
